Award

Coventry Health
and Wellbeing Awards

Kenilworth and Warwick Primary Care Network's Vaccination Team received the accolade for their innovative **Family Hub Catch-Up Vaccination Clinics**, making vaccinations easier to access for local children and families.

“Receiving this award is a fantastic recognition of the dedication and collaboration of the entire vaccination team and our community partners. The Family Hub clinics demonstrate what can be achieved when healthcare providers work closely with local communities to make services more accessible and inclusive.”

Thank you to all our partners, staff, and the families who engaged with this programme.
